Europor K depth filter sheets are authorized for the use in food and beverage industries

They fulfil the requirements according to:

- Regulation 1935/2004 (EC)
- §§ 30 and 31 LFGB (German Food and Feed Act)
- Recommendation XXXVI /1 of the BfR (German Federal Institute for Risk Assessment)
- Code of Federal Regulation FDA Chapter 21 § 177.2260

The filter sheets are made from extremely pure natural materials and synthetic resin on a polyamine and polyamide basis. They contain finely fibrillated cellulose fibres, kieselguhr and perlite in varying amounts in dependency on the recipe. There are no phthalates used in the production of Europor K filter sheets.
