

PREDTAN FRESH

FORMULATION OF PROANTHOCYANIDIC PLANT EXTRACT AND EUCALYPTUS GLOBULUS

PREDTAN FRESH: Stabilizes the color and redeveloping the freshness of heavy wines.

PROPERTIES

PREDTAN FRESH is advised for:

- the stabilization of the color.
- heavy beverages and/or **destructured wines**.
- hide the bad taste .

APPLICATIONS

PREDTAN FRESH is a product developed by different associates and Predel R&D and tested by the University of Bordeaux, France and key wine consultants on different wines, regions and vintages.

Another new product ?

- We have compared **PREDTAN FRESH** to most of existing formulations on the market. In all cases, it was judged by an independent panel as giving better results and being more cost-effective.

DOSAGE

It is recommended to use **PREDTAN FRESH** at a dosage between **2 et 4 g/hl** for red wine and between **2 et 3 g/hl** for white and rosé wine after dilution in wine. The dosage, and therefore the treatment cost, can be optimised by doing direct trials in bottles at different concentrations.

STORAGE

3 years in their original packaging, stored in a cool, odourless and dry place.

PACKING

Pot of 500g.

(Other packaging, ask us)
